Moore Stephens in Greece

Moore Stephens was founded in Greece in 1963, by Mr. Damianos Constantinou, one of the pioneers of the accounting profession in the country. Mr. Damianos has already spread his knowledge and professional culture to a new generation of expert people, combining the wisdom of tradition with the evolution of contemporary market needs. Moore Stephens is the first international accounting firm that came to Greece and won first place in the service of shipping companies, remaining the leading company that provides accounting services to shipping up to today. In more than 45 years, Moore Stephens has contributed to the development of the accounting profession in Greece and has fueled the market with the most experienced, executive staff.

Our Philosophy

The cornerstone of the philosophy of Moore Stephens is to serve clients on a personal level, taking into account that every job and every client has different needs.

The composition of our workgroups is formed in such a way so as to meet two criteria: **Continuity**, in order to increase the efficiency of team work, by knowing the client better and in depth, and **Rotation**, in order to maintain the independence of the group. We make sure that a second partner will always be aware of the client needs, so that, at any time, a high-ranking executive will be in position to serve the client. All the above along with excellent and ongoing training of our staff create an environment that promotes professionalism with a human face.

Our Values

Working with our customers every day, confirms the worldwide reputation of Moore Stephens for **reliability, integrity, honesty and quality**. We always follow the codes of professional ethics of the international association of accountants IFAC, which define our business conduct. **For us, these values are our core** and therefore our company, for more than 45 years now, has earned the appreciation of the market.
